WYTE as a brand

TANEJA TECHNOCOM is the company incorporated on 3rd June 2004 in New Delhi to supply digital printing materials. With course of time and after few years of experience company introduced brand name WYTE for printing medias.

WYTE is a brand established since 2010 and now firmly stand as a reliable media (printing substrate) supplier all across INDIA in terms of excellent quality & durability with a vision to provide quality products at affordable prices and excellent service support to our customers.

Wyte has a collaboration with factories in China and India to manufacture products as per our quality standards. We have a strong distribution network of 22 partners across INDIA to make sure the regular supply of material.

Recently WYTE has initiated to spread wings by introducing value products to corporate companies, brands and brand managers. **So far Samsung, Blackberry and Pathkind labs have officially started using WYTE products** and within few months more reputed brands will add in.

BRAND ASSOCIATION

WYTE is very proud to announce that with its continues effort towards increase in awareness of making the environment eco-friendly, renowned brands like **Samsung, Pathkind Labs & Hindustan Uniliver Lmt. (HUL)** has started taking initiatives to replace all of their PVC based promotional activities with **CARELIT PVC-FREE** materials by WYTE.

A photograph of a two-story building with a vibrant blue, textured facade. The building has several white-framed windows and doors. One door is yellow, and another is white. There are flower boxes under the windows, one with purple flowers and another with pink and red flowers. A black metal railing is visible on the left side of the building.
